ASP 011 LTD

This company profile outlines the capabilities, services, and global footprint of ASP 011 LTD, a multi-domain defence entity providing elite training, tactical procurement, and operational support to government clients worldwide.

With operational leadership drawn from elite military units across Europe, and a global instructor network spanning four continents, ASP 011 is uniquely positioned to deliver scalable, field-proven solutions to Ministries of Defence, law enforcement agencies, and strategic infrastructure clients.

Our services include:

- Specialised military and law enforcement training
- Procurement of tactical gear, uniforms, and mission-ready equipment
- Deployment of integrated support teams for field operations

We operate with legal and commercial presence across multiple jurisdictions, including Serbia and the United Kingdom, and maintain sourcing partnerships across Europe, Asia, and the Americas.

This profile is provided in confidence and may only be circulated to authorised government or institutional stakeholders. For any engagement opportunities, contact details are provided on the final page.

COMPANY OVERVIEW

ASP 011 LTD is a multi-domain defense company operating at the intersection of elite military training, tactical procurement, and operational support. Headquartered in Serbia with legal and operational presence across multiple jurisdictions including the United Kingdom, ASP 011 LTD delivers government-grade solutions with global reach and regional adaptability.

We are not a standard training contractor or gear supplier. We are a field-proven network of military professionals, procurement strategists, and logistics coordinators who operate as a single integrated entity. Our model is lean, deployable, and structured to solve the critical capability gaps faced by government clients in complex operational environments.

Led by former military personnel from across Europe and supported by a global network of over 60+ instructors, advisors, and regional agents across Europe, Asia, North America, and South America, ASP 011 LTD deploys scalable capabilities that fuse doctrine, equipment, and local adaptability into one seamless service line.

We are trusted by Ministries of Defense, energy-sector protective forces, and state-aligned tactical units to enhance combat readiness, accelerate modernization, and streamline force development. Our footprint spans both NATO and non-NATO ecosystems, giving us procurement access and training relevance unmatched by traditional providers.

Whether we are outfitting a battalion, standing up a training cadre, or deploying operational support teams, ASP 011 LTD provides a single point of accountability for mission-critical defense needs.

MISSION, VISION & STRATEGIC POSITIONING

Mission

To enhance the combat effectiveness, tactical readiness, and operational self-reliance of government clients by delivering elite training, high-grade tactical equipment, and deployable mission support—anywhere in the world, under any condition.

Vision

To become the most trusted integrated defense partner for Ministries of Defense and national security agencies operating in volatile, resource-constrained, or transitional environments. ASP 011 LTD will lead in providing vertically integrated force solutions that bridge training, equipping, and deployment support through one accountable channel.

Strategic Positioning

ASP 011 LTD operates at the convergence of three traditionally fragmented markets:

1. Tactical training delivery
2. Procurement and outfitting
3. Operational support and deployment augmentation

Our value lies in removing friction between these pillars—ensuring governments can modernize and field operational units with speed, efficiency, and doctrinal alignment

CORE SERVICE LINES

1. Specialized Training Delivery

Combat-proven instructors deliver elite-level military and law enforcement training—ranging from CQB and sniper operations to PSD, urban warfare, and tactical mobility. Programs are modular, scalable, and deployable in-theatre.

2. Tactical Equipment Procurement

We supply mission-ready gear, including uniforms, ballistic protection, plate carriers, helmets, comms, optics, and full loadouts. ASP 011 sources globally, ensuring both NATO-standard and flexible non-NATO supply options.

3. Operational Deployment Support

From logistics and field advisory to embedded support teams, ASP 011 integrates directly into client operations. We provide planning, sustainment, and mentorship to accelerate force readiness.

TRAINING CAPABILITIES

ASP 011 LTD delivers mission-adaptive training solutions to government clients, security forces, and strategic infrastructure units operating in high-threat or transitional environments. Our training services are not one-size-fits-all they are custom-built around each client's operational needs, force structure, and geopolitical context.

What sets us apart is our ability to deploy highly qualified instructors from around the world, sourced from elite military, law enforcement, and special operations backgrounds. Whether the requirement is conventional force development, special tactics, or specialized capacity-building, ASP 011 can rapidly assemble and deploy the right team.

We deliver:

- Host-nation or in-theatre training programs
- Scalable modules aligned to international standards or national doctrine
- Custom training needs analysis (TNA) and program design
- Field-proven instructors with multilingual and multicultural capability

From desert terrain to dense urban environments, we bring the training to where it's needed—on time, on target, and mission-aligned.

TACTICAL EQUIPMENT SUPPLY

ASP 011 LTD provides government clients with access to one of the most comprehensive tactical supply networks in the industry. Through our established global partnerships, regional procurement agents, and verified manufacturers, we source and deliver mission-ready equipment tailored to any operational requirement. We are not bound by single-country supply chains or narrow vendor lists. We maintain a global supplier database that spans:

- Europe
- Eastern Europe & Balkans
- Asia (China, Pakistan, India, ASEAN)
- North America
- MENA & Africa

From uniforms and boots to ballistic protection, communications gear, tactical accessories, field shelters, and vehicle-mounted systems—we deliver what's needed, when it's needed, without compromising on quality or compliance.

Our clients benefit from:

- Global sourcing flexibility (NATO and non-NATO standards)
- Cost-effective import/export coordination
- Rapid procurement cycles for bulk or urgent requirements
- Direct manufacturer access and customized configurations

Whether you're outfitting a 10-man unit or reequipping an entire battalion, ASP 011 LTD ensures your personnel receive field-tested, battle-ready gear built for the mission.

DEPLOYMENT & OPERATIONAL REACH

ASP 011 LTD operates across multiple regions with the ability to deploy rapidly, sustain field teams, and support mission execution in challenging environments.

Our operational network spans:

- North Africa
- MENA
- Balkans & Eastern Europe
- Sub-Saharan Africa
- South Asia

We maintain standby instructor cadres, logistics coordinators, and field liaison personnel capable of deploying within short notice to both permissive and non-permissive environments.

Whether it's training delivery, operational advisory, or equipping missions—we bring the solution to the ground, ready to integrate into your mission architecture.

LEADERSHIP & INSTRUCTOR NETWORK

ASP 011 LTD operates across multiple regions with the ability to deploy rapidly, sustain field teams, and support mission execution in challenging environments. Our operational network spans: North Africa MENA Balkans & Eastern Europe Sub-Saharan Africa South Asia We maintain standby instructor cadres, logistics coordinators, and field liaison personnel capable of deploying within short notice to both permissive and non-permissive environments. Whether it's training delivery, operational advisory, or equipping missions—we bring the solution to the ground, ready to integrate into your mission architecture.

Process 01

- Special Forces and Tier 1 veterans
- Counter-terrorism and PSD specialists
- Tactical instructors from Europe, North America, Asia, and Africa
- Law enforcement and paramilitary trainers with real-world deployment experience
- Interoperability experts with NATO, UN, and regional doctrine alignment

Instructors are vetted, field-proven, and culturally adaptable—ready to embed within your force structure or operate independently. We scale our teams to mission requirements, language needs, and terrain-specific threats. When governments partner with ASP 011 LTD, they gain more than a contractor. They gain access to a trusted, global-ready force multiplier.
